# *Sitac*

After the destruction of the US datacenter the FSB installed an advanced hacking antenna. Unfortunately the Americans identified the location and decided to launch an operation.

## *Objectives*

### → Common

#### → VDV Base under control (3 pts) :

The VDV database contains top secret information about the forces on the island. Its capture will allow us to get hold (or not!) of top strategic data.

Condition : At least one person should be inside of a zone to consider it as captured.

#### → Supremacy Bonus (2pts).

If there are less than 5 survivors on the opposite team, the team wins two more points.

### ◆ Bluefor

#### ■ The 2 trucks are destroyed. (5pts).

The FSB has had time to download the data from the antenna, the Russians must now evacuate the 2 trucks transformed into a datacenter to their line. We must destroy them before they are transferred!

Victory condition : The 2 trucks are destroyed (severely damaged, burning or under BLUEFOR control).

### ◆ Redfor

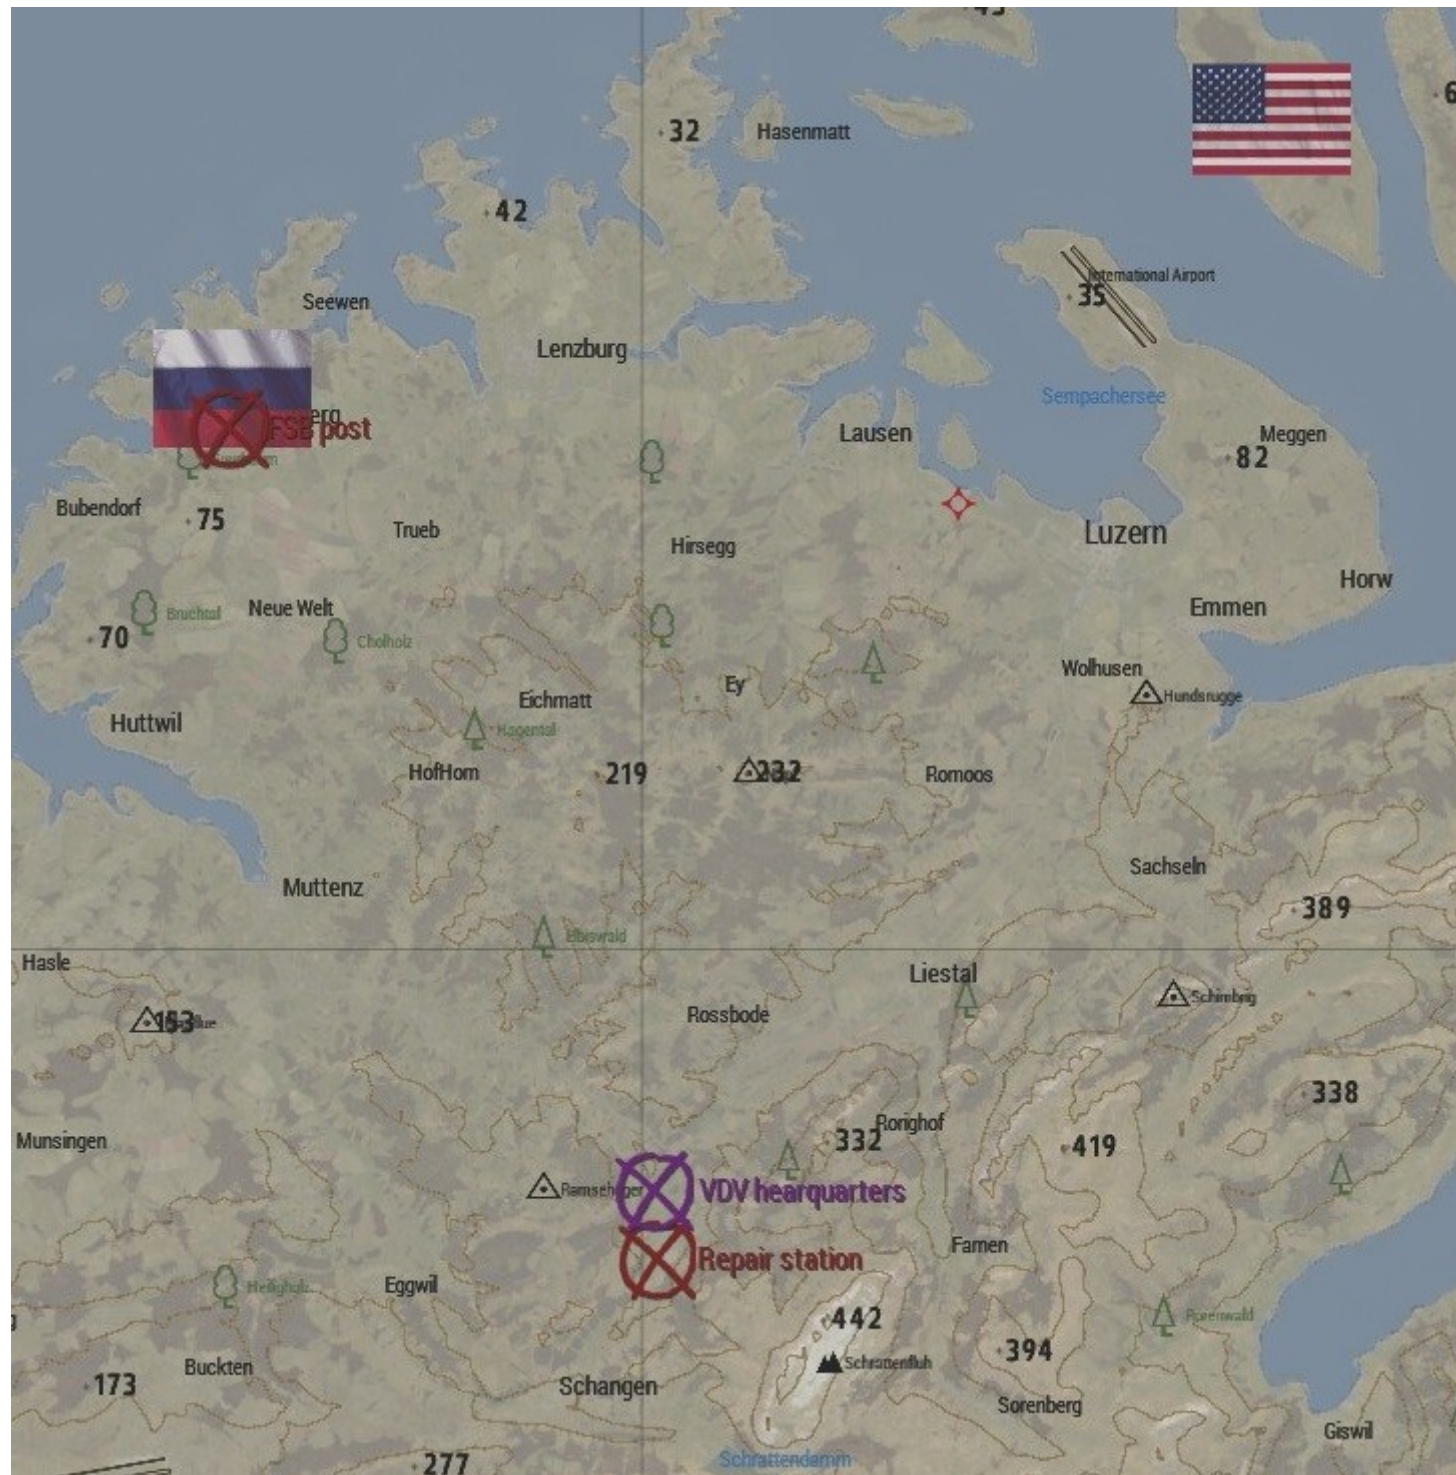

#### ■ The 2 trucks are in the area. (5pts).

We have to evacuate the trucks to our maintenance area to be able to secure this data.

Victory condition : The 2 trucks are in the area.
