# Mission 6 11/02/2021

## [CI] M06 "Entropy "

### *Specifications*

1. One mission.
2. One common objective
3. REDFOR has to bring 2 trucks into an area.
4. BLUEFOR must destroy these 2 trucks.
5. Pre-defined OB.
6. 2 Hours long mission, 15 minutes of warmup

### *Warning(s)*

- 10 technical slots are available per camp. 2 transport vehicles (Hum-vee & UAZ) are available for the technical slots. These slots and vehicles are to be used **ONLY** in case of technical problems.
- A box with 3 LP radios is available for each camp. These radios can **ONLY** be used in case of technical problems.
- Viewing distance limited to 2500 meters.
- **The AH-6J AND the KA-60 will be locked 10 minutes AFTER the end of the warm-up.**
- **Obligation to respect the vehicle allocated to each squad!**

### *Logistics*

The PBO file is public for both sides. It is the file that will be used for the mission. The test server will be up at least 3 days before the date of the game.

- ➔ Each side has a dedicated server:
- OFCRA Bluefor for the US
  - OFCRA RedFor for the Russian

#### Contact:

- **Flip4Flap** (OFCRA) > For any diplomatics related question.
- **Manchot** (OFCRA) > For any question regarding organisation.
- **Mrwhite350** (OFCRA & Campaign Maker) > For any question regarding the conduct of the campaign and the missions.

📌 The communications will take place:

- ★ On the OFCRA [forum](#), via private or public messages
- ★ On the OFCRA [discord](#), via private messages or public publications in the channel "cyber island campaign"

✗ **A request via any other mean of communication will not be considered.**

# Sitac

It was the last straight line, after months of fighting mixed with attempts at appeasement at the United Nations, the two sides decided to end it all by launching a major offensive on the main city of Napf. It must be said that its control is of great importance: it is from here that the parent Internet connection cables under the sea...

## Objectives

### → Common

#### → Hospital under control (3 pts) :

For months now, the fighting has not ceased to cause casualties and injuries on both sides. The US-controlled hospital has the infrastructure and capacity to handle the daily influx of casualties. Its control will save many lives while waiting for the ceasefire.

Condition : At least one person should be inside of a zone to consider it as captured.

#### → The commander's property is under control.(2 pts) :

The commander's property is his resting place between battles his capture would not make him very happy.

Condition : At least one person should be inside of a zone to consider it as captured.

#### → Supremacy Bonus (2pts).

If there are less than 5 survivors on the opposite team, the team wins two more points.

### ◆ Bluefor

#### ■ The commander is in the dock area (3pts).

Each camp commander has a procedure for taking direct control of the flow of light through the optical sheaths that connect the island to the rest of the world via telecommunications cables. The central node of these cables is located on the port docks. Control of this area will render the cyber operations of the opposing camp inoperative.

Victory condition : The commander is in the area (and alive! No coma!) at the end of the game.

### ◆ Redfor

#### ■ The commander is in the dock area. (3pts).

Each camp commander has a procedure for taking direct control of the flow of light through the optical sheaths that connect the island to the rest of the world via telecommunications cables. The central node of these cables is located on the port docks. Control of this area will render the cyber operations of the opposing camp inoperative.

Victory condition : The commander is in the area (and alive! No coma!) at the end of the game.
