Sitac

After the destruction of the US dactacenter the FSB installed an advanced hacking antenna. Unfortunately the Americans identified the location and decided to launch an operation.

Objectives

➜ Common

➜ VDV Base under control (4 pts) :
The VDV database contains top secret information about the forces on the island. Its capture will allow us to get hold (or not!) of top strategic data.

Condition : At least one person should be inside of a zone to consider it as captured.

➜ Supremacy Bonus (2pts).
If there are less than 5 survivors on the opposite team, the team wins two more points.

◆ Bluefor

■ The 2 trucks are destroyed. (4pts).
The FSB has had time to download the data from the antenna, the Russians must now evacuate the 2 trucks transformed into a datacenter to their line. We must destroy them before they are transferred!

2 points for each destroyed truck!

Victory condition : The 2 trucks are destroyed (severely damaged, burning or under BLUEFOR control).
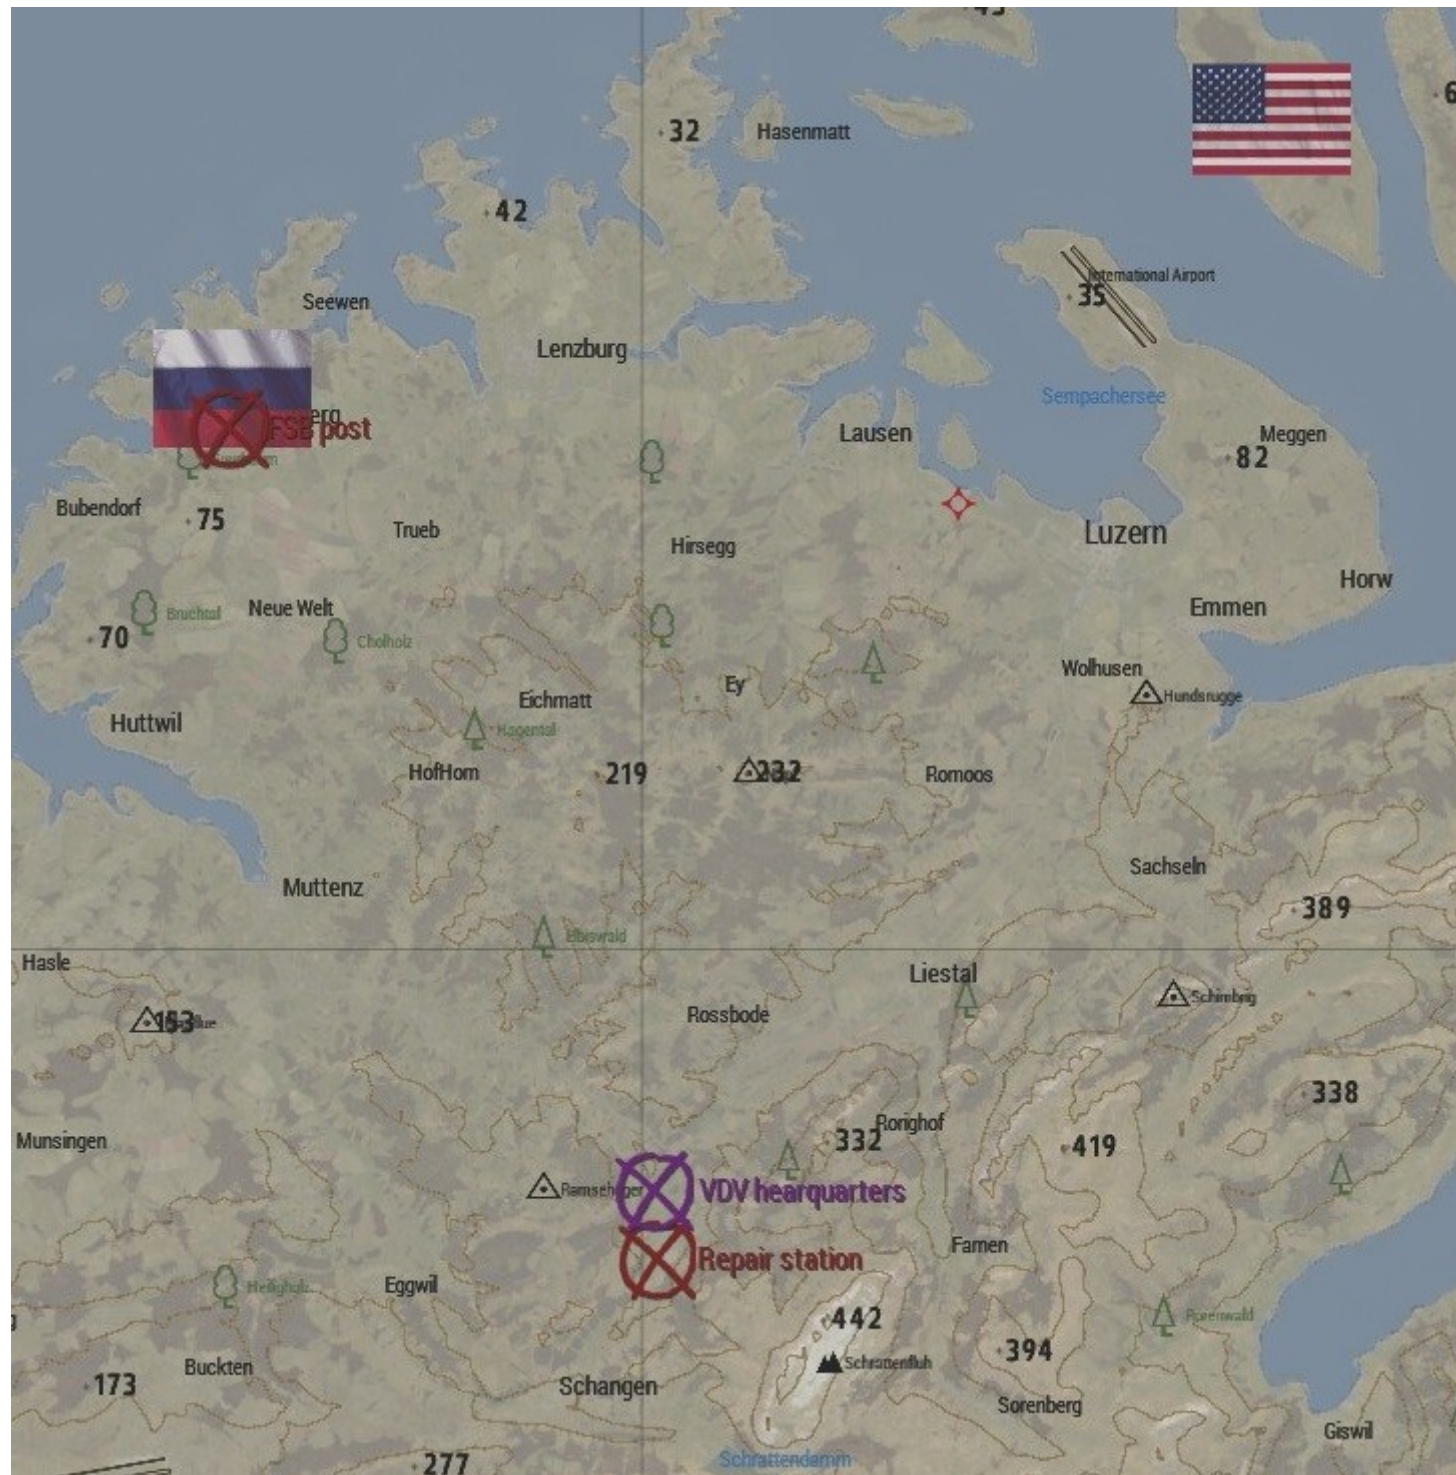

◆ Redfor

■ The 2 trucks are in the area. (4pts).
We have to evacuate the trucks to our maintenance area to be able to secure this data.
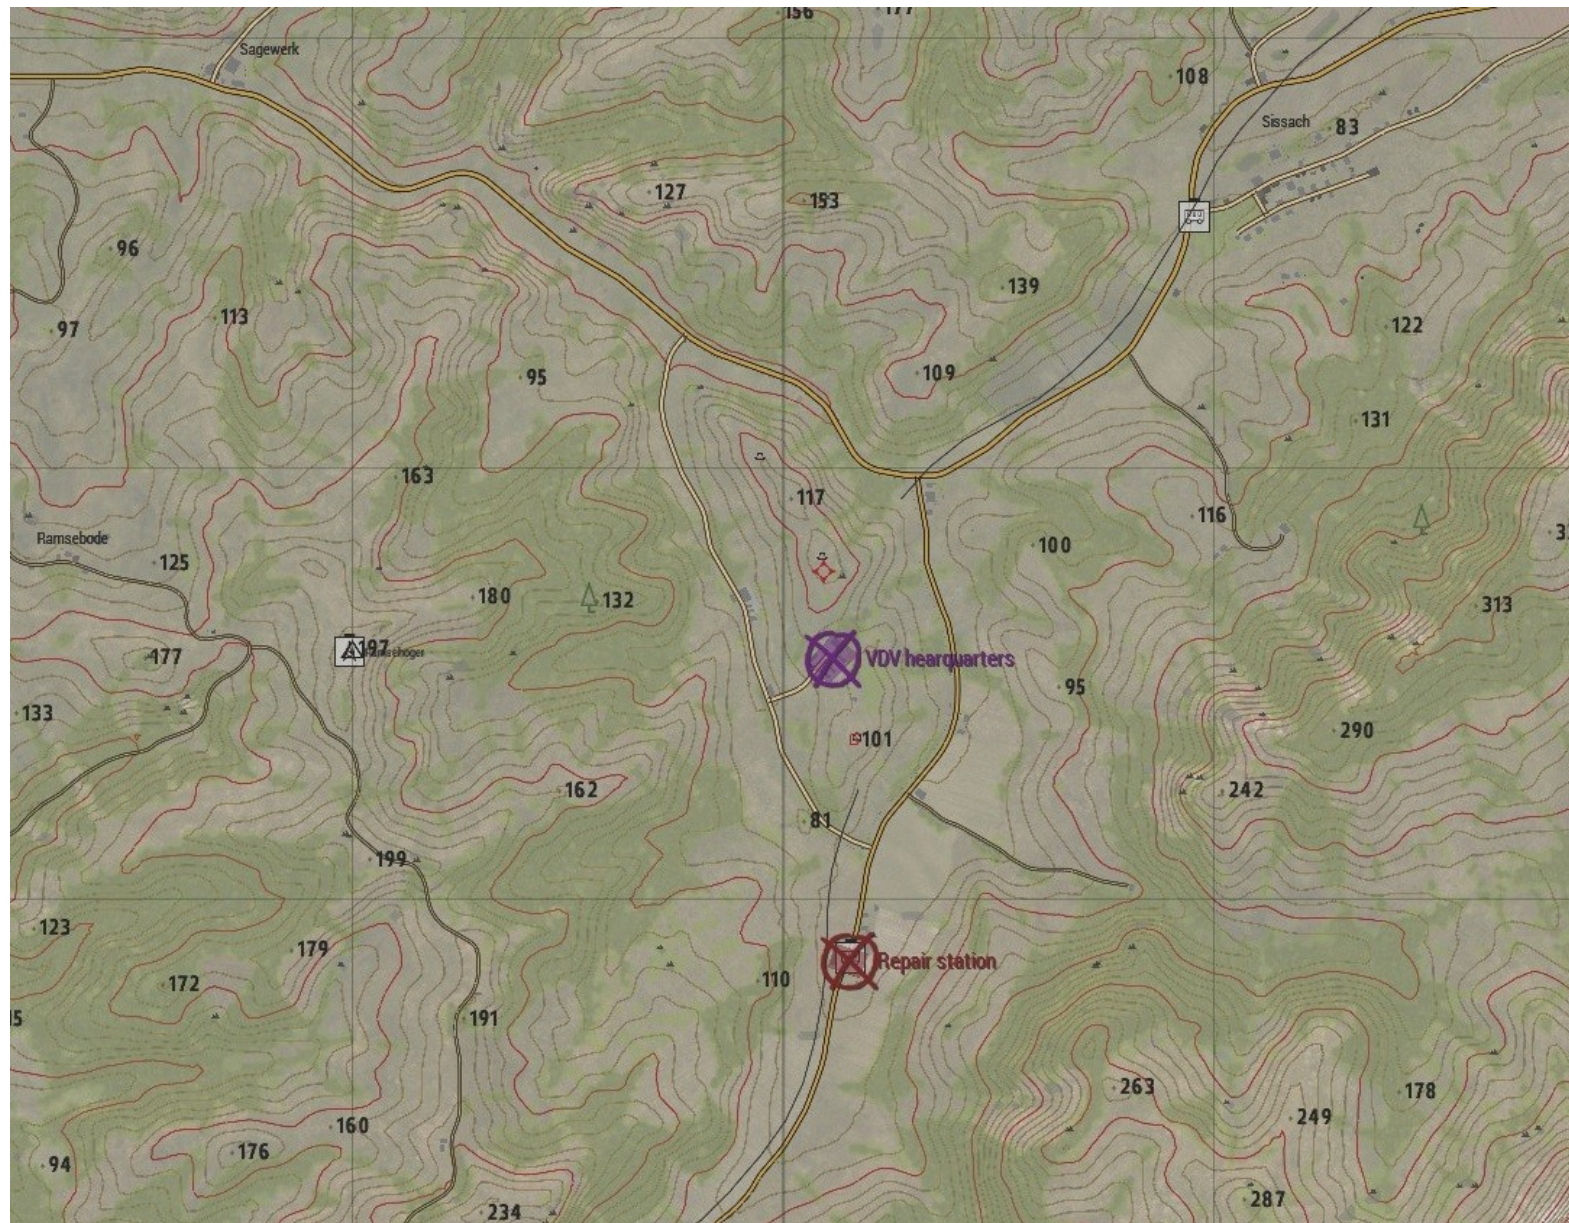

2 points for each truck in the area!

Victory condition : The 2 trucks are in the area.
